<i>Contributing Authors to the Fourth Edition</i> .....	vii
<i>Contributing Authors to the Third Edition</i> .....	ix
<i>Contributing Authors to the Second Edition</i> .....	xi
<i>Contributing Authors to the First Edition</i> .....	xiii
<i>Preface</i> .....	xv

## **1** PART **Fundamentals of Neuropharmacology**

<b>1.</b> Basic Principles of Neuropharmacology .....	3
<b>2.</b> Cellular Basis of Communication .....	20
<b>3.</b> Synaptic Transmission .....	62
<b>4.</b> Signal Transduction in the Brain .....	82

## **2** PART **Neural Substrates of Drug Action**

<b>5.</b> Excitatory and Inhibitory Amino Acids .....	129
<b>6.</b> Widely Projecting Systems: Monoamines, Acetylcholine, and Orexin .....	158
<b>7.</b> Neuropeptides .....	195
<b>8.</b> Atypical Neurotransmitters .....	214

## **3** PART **Neuropharmacology of Neural Systems and Disorders**

<b>9.</b> Autonomic Nervous System .....	245
<b>10.</b> Neural and Neuroendocrine Control of the Internal Milieu .....	265
<b>11.</b> Pain .....	289
<b>12.</b> Neuroinflammation .....	313
<b>13.</b> Sleep and Arousal .....	330
<b>14.</b> Higher Cognitive Function and Behavioral Control .....	355
<b>15.</b> Mood and Emotion .....	381
<b>16.</b> Reinforcement and Addiction .....	413
<b>17.</b> Schizophrenia and Bipolar Disorder .....	440
<b>18.</b> Neurodegeneration .....	466
<b>19.</b> Seizure Disorders .....	511
<b>20.</b> Stroke and Migraine .....	530

<i>Index</i> .....	549
