is output style is based on the Publication Manual of the American Psycholocial Associaton (APA), 7th edition. The APA is a complex style. The notes below document me formatting items you might need to be aware of.

tle distinction is made in APA 7th between electronic and non-electronic sources. For existing libraries using the electronic source reference types, you may need to dentified as Kindle in the Type of Medium field. 修改書目格式功能目錄

For references requiring a Year and Date, enter the corresponding date for the Year field in the Last Update Date field using the format Month, Year. Enter the full Retrieval date into the Access Date field using the format Month Day, Year.

Retrieval dates:

The retrieval date is now only needed for sources that are designed to change or reflect information that changes over time (i.e., social media sites), or for sources that are not archived. (Please see section 9.16 of the manual for specific information.) The retrieval date will print if it is present in the library reference. You may need to manually edit your final manuscript to add or remove the retrieval date information.

Contributor Roles:

Some reference types require the role of the contributor to appear in the reference list. For example, the writer B. Oakley must appear as "Oakley, B. (Writer)" (minus the guotes). For proper formatting of the bibliography, the name must to be entered as a corporate author in the library (i.e., "Oakley,, B. (Writer)", minus the guotes). The in-text citation will need to be adjusted with Edit and Manage citations to remove the Author, replacing it with custom prefix author text.

中英文參考書目並存方式比較

	文件複製	自訂修改
()使用時機	非數字格式	數字格式、 中英文文獻量差距明顯
(優點	不須修改語法格式 · 只需要 剪貼文字	如一般插入文獻步驟
会 缺 點占	數字格式較不適用,需在兩 份文件與記事本中跳轉	對 Citation Template 無法 變更的連接詞、標點符號等, 須手動修改移除參數後文檔
浴 注意事項	若使用數字格式 · 因其以引 用先後順序標號 · 會有中英 文參考文獻混雜的情況	須將各筆書目的 Reference Type 變更為 新定義的參考資料類型
