**Multiple Access Technologies for 5G**  
New Approaches and Insight  
In the series De Gruyter STEM

Jie Zeng, Xin Su, Bin Ren, Lin Liang, Posts and Telecom Press Co., Ltd. 2021

More Cite Download EPUB Download PDF

Starting with an overview of current research progresses on multiple access technology, the book then presents the theoretical fundamentals, technical principles, transmission scheme, key technologies and evaluation results of new multi-access technologies, especially focusing on its typical applications 5G communication systems. With extensive practical cases, it is an essential reference for researchers, engineers and graduate

- We only sell electronic products through our webshop currently. Please visit Amazon or a bookseller of your choice to purchase other books.

3 Single click to download full PDF and EPUB (if available)

\* Purchase option will be shown to unauthenticated users.

# Appendix Search terms

## Search is case insensitive

This means searches do not take case capitalisation into account.

### Example:

“pascal” finds articles containing “pascal” or “Pascal”

## Boolean Operators

Within the search fields, the Boolean Operators **AND**, **OR** and **NOT** allow you to perform searches that specify logical relationships between terms. By default, i.e. if you do not use an operator, an AND relationship between the terms you enter is established in the full text field.

## Phrases

To search for documents containing an exact phrase, enclose the phrase in quotation marks. Phrase searches will not treat **AND**, **OR** and **NOT** as Boolean Operators and will not strip out stop words.

### Examples:

“computational linguistics” finds articles in which the two words appear as a phrase

computational linguistics finds articles that contain both words, apart or together

## Special characters / Umlauts

Feel free to use **umlaut** and „ß“; the system will search for the term both with an umlaut and without.
