EBSCOhost is a powerful online reference tool that offers a variety of full text databases and popular databases from leading information providers. In this tutorial, we will look at how to search EBSCOhost, as well as features including: the result list, previewing articles and images, and setting preferences.

Note that because EBSCOhost is a fully responsive web experience, you are able to access content from your mobile device with the same features and functionality available to you on desktop computers.

Click **Search History** to view the searches conducted during your session. You can also combine searches and add them to the search box by marking the check boxes next to the searches you would like to run and clicking one of the **Search with** buttons. Click the **Edit** link to modify the search terms or limiters of that line of your search history.

The image shows a screenshot of the EBSCOhost search interface with the Preferences dialog box open. The dialog box is titled "Preferences" and has a close button (X) in the top right corner. It contains several sections of settings:

- General Settings:** Language is set to English. Autocomplete search suggestions is set to On. Run Smarttext is set to On. Search when query returns no results is set to On.
- Result List Display:** Format is set to Standard. Page layout is set to Three Columns. Sort by is set to Relevance. Results per page is set to 10.
- Export settings:** Default format is set to Standard Field Format. Export settings are set to Direct Export in RIS Format (e.g. CIP). E-mail a file with citations in: RIS Format (e.g. CITAVI, EasyBib, Er).

A red box highlights the "Page layout" options, which include "Three Columns", "Two Columns", "Two Columns", and "One Column". A red circle highlights the "Print, E-mail, Save Export" link in the bottom left of the dialog box.

Click on the **Preferences** link to select your print, email, save, and export settings, as well as customize options such as page layout and language. You can save your preferences for future sessions by signing into your MyEBSCO folder.

EBSCOhost Research Databases

EBSCOhost is a powerful online reference system accessible via the Internet. It offers a variety of proprietary full text databases and popular databases from leading information providers.

The comprehensive databases range from general reference collections to specially designed, subject-specific databases for public, academic, medical, corporate and school libraries.
