Library System Migration Service Notice

To bring you a better library experience and improved information security, all Academia Sinica libraries are working together to launch a new cloud-based library system. The new system is expected to go live in mid to late August.

During the transition, some services will be adjusted as follows:

Key Dates	Service Adjustments
June 14, 2025 (Sat) – Until new system is live	✎ Borrowing of newly added items will be temporarily suspended. ✎ Items already on shelves remain available for borrowing.
July 1, 2025 (Tue) – Until new system is live	✎ Due dates between July 1 and August 31 have been automatically extended to October 31, 2025. No need to return or renew during this period. ✎ Online hold and renewal services will be temporarily unavailable.
August 2, 2025 (Sat) – Until new system is live	✎ The current system will become inquiry-only. ✎ All borrow, return, and renewal services must be handled in person at the service desk. Records will be updated by staff once the new system is live.

【 🔔 Friendly Reminders 】
✎ Your borrowing history will not be carried over to the new system. If needed, please log into the **current catalog** and export your history.
✎ Pending hold requests will not be retained. Please re-submit your requests after the new system is live.
